Miskov, Jennifer
Defining Moments: Rees Howells

4. Introduction

Bill Johnson introduces Defining Moments, a book about ordinary people whose lives were utterly changed by an encounter with God. He notes it was coauthored with Dr. Jennifer A. Miskov, who did most of the research and writing.

Key takeaways

- The book profiles people whose encounters with God transformed their thinking, their gifts, their worldview, and especially their grasp of God's nature and heart for others.
- None of them were unusually gifted; their 'gift' was God Himself. Seeing God clearly brought a summons, and they said yes.
- It is meant as a book of hope, written to stir passion for the 'more' only God can give.
