

Copeland, KennethOur Covenant With God

2. Introduction

The author sets up the book's central metaphor: many Christians live far below what God has already given them because they don't know the terms of their covenant—the New Testament.

Key takeaways

- A poor immigrant ate only bread and cheese on his voyage, not knowing meals were already included in his ticket.
- Many believers live the same way—settling for little while God's best already belongs to them.
- This book aims to show what is yours in your covenant with Jesus.
